

Corner Roller Tune Up

After miles and miles of internal corners, the inner rollers of your tool can become worn. When this happens the rollers may feel loose and your corners may not be as precise. Keep your Corner Roller creating crisp internal corners by replacing the studs and inner rollers that support the main rollers. After we've changed these parts we'll give the Corner Roller a professional cleaning, lubricate all the moving parts and adjust the tool to factory settings. The following parts will be changed as part of this Tune Up:

Quantity	Item	Description
4	152006	Stud
4	151011	Inner Roller

Price: \$84.⁹⁹
Includes Shipping

\$95.50 for Residents of AK or HI
Including FedEx 2-Day Shipping

Important: The Corner Roller casting must be in good condition or the Tune Up may not restore the tool to perfect working condition. Our Expert Technicians will advise you of any recommended additional repairs when the tool is examined.

Superseded Parts Policy: As part of our continuous product improvement, certain parts are sometimes superseded by an improved or updated part. In these cases, the actual model numbers of the parts we replace may differ from those listed in this literature but we guarantee that all the parts listed for each repair package will be replaced in regards to placement and function within the tool.

Warranty on Repairs: We warranty all repairs will be free from defects in parts and workmanship for a period of 1 year from the date of the repair. This applies only to the specific parts that were replaced as part of the repair.
